Why IPHC 2020 is Valuable?

The International Pediatric Hematology Conference 2020 (IPHC 2020) is specialized, scientific, and educational event designed to create awareness, provide practical tips and new updates, and share exciting developments in the clinical management of pediatric blood disorders. The IPHC 2020 is organized by Pediatric Department at Salmaniya Medical Complex, Ministry of Health in the Kingdom of Bahrain on 23 - 25 January 2020 at the Wyndham Grand Hotel, under the patronage of Her Excellency Faeqa Bint Saeed Al Saleh, the Minister of Health.

The main aim of the conference is to discuss the recent approaches, advancements and challenges faced in relevance to pediatric hematology. This conference is designed with an intention to review various aspects in the diagnosis and management of pediatric hematological diseases and explore the latest global updates as well as the skills in relation to this specialty.

This conference is an ideal chance to meet incredibly renowned speakers, and connect with expert pediatricians and hematologists. It will also be a great opportunity to learn about the latest strategies, advancements, and the most current updates in the field of pediatric hematology. IPHC 2020 will create a comprehensive intellectual and operational environment for acquisition of knowledge, skills, clinical judgments, and attitudes essential for the practice of clinical pediatric hematology.

The scientific programme strive to provide a multi-disciplinary approach to the assessment, diagnosis and treatment strategies to paediatric blood diseases management presented by leading international, regional and local experts who will show the most recent data and give their opinions on the clinical applications. The interactive and discussion-based format of the conference will encourage audience participation through dynamic lectures, case-based studies, and hands-on discussions.

Objectives

The active participation in this multidisciplinary conference should enhance attendees' knowledge with the most recent innovations, trends, and concerns, practical challenges encountered and the solutions adopted in the field of pediatric blood disorders.

Who Should Attend?

The International Pediatric Hematology Conference is expected to attract a large range of delegates including Pediatric Hematologists, Adult Hematologists, Pediatricians, Neonatologists, Family Physicians, General Practitioners, Pathologists, Pharmacists, Nurses, Healthcare Planners, and other Healthcare Professionals seeking updated information on pediatric blood disorder.
